

Upcoming Opportunities

To encourage wide participation, innovation, and collaboration, WLF7 will feature the following calls and activities, engaging universities, researchers, practitioners, students, industry partners, and communities worldwide. Detailed guidelines and timelines will be announced on the official WLF7 website.

Call for Workshops: Proposals for pre-conference and thematic workshops on landslide science, technology, applications, and capacity building.

Call for Exhibits: Exhibition opportunities for universities, industry, technology providers, and research organizations to showcase their research and innovations.

Landslide Photography Contest: Poster-style visual display of all submitted photographs, with outstanding entries selected by WLF7 participants.

Additional Activities: Student activities, special sessions, and outreach initiatives.

WORLD'S LARGEST GATHERING OF LANDSLIDE EXPERTS

First Time Ever in India

Theme: Landslide Science and Practice for Safe and Resilient Communities

www.wlf7.org

7th World Landslide Forum

“The World Landslide Forum is a flagship triennial international event organized under the aegis of the International Consortium on Landslides (ICL) in collaboration with UNESCO and other UN and international organizations.

The seventh edition (WLF-7) will be hosted by Amrita Vishwa Vidyapeetham, Faridabad, India. It is a privilege to bring this global forum to a landslide-prone country, uniting leaders, experts, practitioners, and students to strengthen global resilience through science, technology, policy, practice and capacity building.

Global Alignment

WLF7 contributes directly to major global and national frameworks, including:

Sendai Framework for Disaster Risk Reduction (2015–2030)

Kyoto Landslide Commitment 2020

Indian Governments 10 point agenda on Disaster Risk Reduction

Paris Agreement on Climate Change

2030 Agenda for Sustainable Development (SDGs)

PREMIER GLOBAL PLATFORM FOR EXPERTS, RESEARCHERS, POLICYMAKERS, & PRACTITIONERS

Programme Highlights

- High-Level Plenary Sessions
- Thematic Technical Sessions
- Policy Dialogues and Roundtables
- Workshops and Capacity-Building Programmes
- Exhibitions and Poster Sessions
- Field Visits and Demonstration Sites

Thematic Areas

WLF7 addresses landslide risk reduction through integrated scientific, technical, and policy-oriented themes spanning hazard assessment, monitoring, mitigation, and governance.

Theme 1
Reducing Landslide Disaster Risk

Coordinators: Shinji Sassa, Irasema Alcántara-Ayala, Matjaž Mikoš, Kyoji Sassa

Theme 2
Remote Sensing, Site Investigation, Monitoring, and Early Warning

Coordinators: Maneesha Vinodini Ramesh, Veronica Tofani, Jan Klimeš

Theme 3
Testing, Modelling, and Mitigation Techniques

Coordinators: Binod Tiwari, Sabatino Cuomo, Beena Ajmera, S. S. Chandrasekaran

Theme 4
Landslide Hazard Mapping, Risk Assessment and Management

Coordinators: David Huntley, Biljana Abolmasov, Mario Parise, Dhanya M

Theme 5
Progress in Landslide Science and Applications

Coordinators: Željko Arbanas, Hemalatha Thirugnanam, Faisal Fathani, Jonathan Chambers

Theme 6
Regional Landslide Case Studies

Coordinators: Chih-Chung Chung, Xuanmei Fan, Surya Parkash, Akshaya Kumar Mishra

Call for Papers

WLF7 invites original research papers, case studies, and practice-oriented contributions addressing landslide risk reduction and resilience.

Accepted papers will be published in the **ICL Open Access Book Series – Progress in Landslide Research and Technology (P-LRT)**, **Scopus-indexed**, ensuring global visibility and impact.

Submission deadline: 30 April 2026

Guidelines: www.wlf7.org
